BUSINESS WANTED

One of our clients, age 38, active and accurate and accustomed to both office and outside work, desires a position with textile or wood-working plant or good wholesale business, with or without financial interest. We make a specialty of North Carolina and Florida investments and business opportunities and furnish complete information and reports for our clients.

COOK AND CO., Blowing Rock, N. C.

HEAD-OFF THAT ALL-WINTER COUGH

At the first sign of sore throat, tight chest or stuffed-up head take a dose of Dr. Bell's Pine-Tar-Honey. The healing pine-tar, soothing honey and glycerine quickly relieve the congestion, loosen the phlegm and break up your cold. Dr. Bell's Pine-Tar-Honey has all the benefits of the healing aroma from a pine forest. It is pleasant to take and antiseptic. The formula on the bottle tells why it relieves colds and coughs. At your Druggist, 25c.

The Habit of Taking Cold.

With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold-spring bath every morning when you first get out of bed—not ice cold but a temperature of about 90 F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

INAUGURATION CHAIR CAR SERVICE BETWEEN CHESTER AND LENOIR JUNE 20, 1916.

Beginning June 20, 1916. Chair car will be operated on trains Nos. 9 and 10, between Chester and Lenoir.

Conductors will use rate published in summer tourist tariff for chair car, and get supply of tickets and instructions from auditor's office.

E. F. REID, G. F. & P. A.

FIRE PREVENTION DAY OCTOBER 9TH

Prevent Fires.

A large part of the fire waste of this country is directly due to untidy conditions and other faults of management. Heavy losses naturally increase cost of insurance. A careful inspection of your entire premises daily will assist in bringing about a lower insurance rate.

Let all our people observe FIRE PREVENTION DAY by a general cleaning up and removal of rubbish, trash and waste from their premises. Start an inspection and clean-up week.

Let the Chief of Fire Department and municipal authorities arrange for public exercises—public speaking, parade of fire department, and other exercises.

Let all heating apparatus and chimneys be carefully gone over and placed in a proper condition for winter use. Let all public and private institutions, hotels, asylums, factories, and theatres be carefully looked over on that day, and, when necessary, any changes made that will prevent fires and further insure the safety of the occupants.

Let the local authorities give attention to better building regulations, fire protection and prevention, as well as additional apparatus for fire fighting.

Let fire drills be held in institutions, factories, and in public and private schools and let teachers instruct their pupils through short talks and proper programs on dangers of fire and the simple means of fire prevention.

A Few Suggestions for the Prevention of Fires and Loss of Life.

ASHES should be kept in metal receptacles and never in paper or wood barrels or boxes.

OILY RAGS OR WASTE should be kept in standard metal waste cans and contents removed and burned each night.

RUBBISH should never be allowed to accumulate in or near buildings.

GAZOLINE, NAPHTHA, and other volatile oils, should not be kept in buildings, and used only with extreme care.

STEAM PIPES should be kept clear from all wood and other combustible material.

OPEN FLUE HOLES should be protected with sheet iron, or, better, be bricked up.

ELECTRICITY, when improperly installed, is hazardous; lamp cords should not be hung on nails or wrapped around any piping; paper shades should never be used. Confer with your City Electrician when changes are contemplated. Do not allow employees to tamper with electrical installations.

STOVEPIPES should be securely riveted and run direct to brick chimneys and never through floors or partitions; protect floors under and about stoves with brick, cement, or sheet metal.

STAIRWAYS should be kept closed and clear at all times; never place any stock or shipping thereon.

ASHES OF GOOD WOOD should be maintained at all times; never pile stock in front of windows or against doors, as it handicaps the firemen in case of fire.

FIRE DOORS AND SHUTTERS should be closed every night, and stock should never be placed so as to hinder the ready closing of these fire doors.

Better to use metal frames and sash with wire-glass.

SEE THAT ALL FIRE EXTINGUISHING APPARATUS is in good working order.

DAMP LAMPBLACK will spontaneously ignite. So will slack and pulverized coal and charcoal when wet.

NEVER USE PARLOR MATCHES; always the safety match; they cost no more.

REQUIRE ALL DOORS TO SWING OUTWARD in public buildings, schools, theatres, etc., may prevent the loss of many lives.

All buildings over two stories high should be provided with FIRE ESCAPES AND STANDPIPES for fire Department use.

Aid us in the Prevention of Fires and Loss of Life.

JAMES R. YOUNG, Insurance Commissioner, Raleigh, N. C.

Shined the Knives and Forks.

Donald's mother invited Mrs. Neighbor to dinner. During the course of the morning Donald went out to make an informal call on his own account on the prospective guest.

"Now, Donald," said Mrs. N., "tell your mother not to give a thing extra for me. She is not going to any trouble, is she?"

"Not much," replied Donald. "She shined the knives and forks."

Where They Ought to Be.

I am afraid your father has too many irons in the fire," said Uncle George to niece Eleanor.

"My daddy hasn't got any irons in the fire," indignantly protested Eleanor. "Mamma keeps them in the laundry."

Insurance is the more expensive in Great Britain than in the United States, and in order not to inflict a too heavy outlay on physicians using light in their professional work, the British government is now granting a rebate of 3d. per gallon to all doctors making application for it before their local collector of taxes.

BAD COLD FROM LITTLE SNEEZES GROW

Many colds that hang on all winter start with a sneeze, a sniffle, a sore throat, a tight chest. You know the symptoms of colds, and you know prompt treatment will break them.

Dr. King's New Discovery, with its soothing antiseptic balsams, has been breaking up colds and healing coughs of young and old for 47 years. Dr. King's New Discovery loosens the phlegm, clears the head, soothes the irritated membrane and makes breathing easier. At your druggist, 50c.

OLD HICKORY EDITOR DIES IN WASHINGTON

News of the death in Washington Tuesday of Mr. William F. Tomlinson was received here with sorrow by hundreds of the older citizens who remember him as editor of the Piedmont Press, which he established here in 1875 and published until 1886, when he moved to Asheville, where he was connected with the Gazette. The following special to the Greensboro News tells of his life and work with the exception of the years spent in Hickory:

Washington, Oct. 3.—William F. Tomlinson, a native of Ireland, died at his residence here today after an illness of several months. He is survived by his widow and daughter, Miss Glennie Tomlinson; one brother, John S. Tomlinson, a prominent real estate dealer of Washington, and two sisters, Mrs. Scott Downum and Mrs. Charles Thomas, of Harmony, near Stateville.

Mr. Tomlinson was well known in North Carolina and Washington. For a number of years he was connected with the old Asheville Gazette at Asheville, with his brother, John W. Tomlinson, and later came to Washington and entered the government service as clerk in the department of agriculture, a position he held at the time of his death.

Mr. Tomlinson was one of the organizers of the North Carolina Society of Washington, and at the last annual election was named secretary-treasurer of the society without a dissenting vote. He has many relatives and friends in western North Carolina.

Thomas Robinson, president of the North Carolina society of Washington, issued a call for a special meeting of the society to take action in commemoration of his death.

The funeral will be held from the late residence and interment will be in Rocky Creek cemetery. The North Carolina society will attend the funeral in a body.

SOLDIER'S DUTY ON BORDER NO VACATION

El Paso, Texas, Oct. 4.—It is not a vacation—this job of being a national guardsmen down on the border. The soldier's duty is to be on the border, the civilian soldiers are now working harder than they ever worked before. And they are doing it cheerfully.

Here is a guardsman's day, if he belongs to the cavalry or artillery. The infantry varies little except there is no horse to care for. At 5:30 the "guardie" rolls out of his cot—if he has one—to this bugle. After dress and washing, he has thirty minutes to feed, water and curry his horse and "police" the company streets. Policing is only a cover name for the work done at home by the "white wings." At 6 o'clock the bugle blows the most popular noise on the border—the march call for breakfast. Then more policing and tidying up of tents. About seven o'clock attention is turned to the mail. And further policing ensues for an hour. By this time the sun is blazing and the temperature is climbing. The real work of the day begins. From eight until noon the practical work of making citizens into soldiers goes on out on the naked sun-baked plains back of the huge camp. The drilling covers every possible activity of a soldier. It is man's work—even minute of it. Sometimes the morning drills are replaced by a s-x-mile hike out into the desert. Again the horses have to be brushed, watered and fed before dinner. The noon mess call sounds at 12 o'clock. From 1 to 3 o'clock is fatigue, or the rest period. It is utilized for officers and non-commissioned officers school and to instruct the men in some of the fine points in the care of guns and equipment. At 3 o'clock there is another drill period. It is the hottest part of the day. Fresh from factory and office this is most galling work on the men. The afternoon drill period is responsible for the song entitled, "Oh, we'll re-enlist—like hell we will," a favorite of the civilian soldiers in their tents at night. About 4:30 "stable" sounds and the horses must be cared for again. The evening meal comes at 5:30. After that there is another short drill at "retreat" and an inspection, and "guardie" has nothing to do until tomorrow—except he is in his tent by 11 o'clock when taps sounds.

Representative Claude Kitchen of Halifax county, Democratic leader in the house, spoke Tuesday noon at Morganton before a crowd that completely filled the court house. Mr. D. L. Russell, who went to Morganton especially to hear him, said it was one of the best speeches he had ever heard.

Mike Kirby, who is wanted here for the larceny of \$20 from another negro, has been arrested at Belmont, Chief Lantz was advised Tuesday night. The chief of Sergeant Sigmon will go for him.

WANT FARMERS TO EMPLOY GRADERS

(By Associated Press.)

Washington, Oct. 4.—To bring about more extensive use of the official cotton standards by growers in their sales, the department of agriculture is placing with the county agent in cotton producing sections a set of practical cotton standards. It is believed that the presence of these standards in each county where farmers may examine and become familiar with them will be a valuable educational force in grading and will tend to bring about the substitution of methods of exact classification in place of the approximation of grades in state and warehouse sales.

(By Associated Press.)

Washington, Oct. 4.—The first to arrive was Mr. Taft. Five minutes later came Colonel Roosevelt. The packed hallways cheered him. The hearing was still in progress when Mr. Hughes reached the building.

TAFT AND ROOSEVELT SHAKE HANDS AT LAST

Theodore Roosevelt and William H. Taft clasped hands for a moment Tuesday in New York at the Union League Club's reception to Charles E. Hughes.

"How do you do?" said Mr. Taft. "How do you do?" Mr. Roosevelt rejoined.

Each bowed and Mr. Roosevelt passed on to shake hands with other guests, leaving Mr. Taft to greet those who followed. A few moments later Mr. Roosevelt took his place in the receiving line. He stood between Mr. Hughes and Chauncey M. Depew. On the other side of Mr. Depew stood Mr. Taft.

Thus, standing in the same receiving line they shook hands with the hundreds of club members and the guests who filed past during the evening. They did not meet again, however, or exchange any other words than the commonplaces of greeting.

Mr. Hughes shook hands with Mr. Taft afterward. "Just like any gentlemen would shake hands,"

Colonel Roosevelt declined to comment on the meeting.

After the sand-shaking was over and the library was cleared Eliahu Root, president of the club, escorted Mr. Hughes through a flag-draped corridor to a small platform in the main club room. Beneath a life-size picture of Abraham Lincoln, Mr. Root again introduced the nominee and Mr. Hughes made a brief address.

Colonel Roosevelt and Mr. Taft were called upon by Mr. Root and each responded with a short talk.

The meeting between Colonel Roosevelt and Mr. Taft was the first since April 13, 1915, when both were pullbearers at the funeral of Thomas R. Lounsbury, long-time professor of English at Yale University and a close friend of both. On that occasion they merely shook hands, exchanging no words.

The reception was arranged some time ago and public announcement was made that Professor Taft and Mr. Hughes would meet. The hour set for the affair, 10 o'clock, found the clubhouse entrance choked with hundreds of men.

The first to arrive was Mr. Taft. Five minutes later came Colonel Roosevelt. The packed hallways cheered him. The hearing was still in progress when Mr. Hughes reached the building.

Mr. F. E. Nichols and Mrs. Boyd Hardin spent yesterday in Charlotte.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theodor's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theodor's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and I do them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theodor's Black-Draught is purely vegetable, and has been found to regulate weak digestion, acid digestion, believe indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 123

—BACKACHE?

—RHEUMATISM?

—RUE-DOWN?

Those of us who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in the arteries, veins and joints. We often suffer from twinges of rheumatism or numbness sometimes from gout, swollen hands or feet. There is no longer the slightest need of this, however, as the new prescription "Anuric" is bound to give immediate results as it is many times more potent than lithia, in ridding the impoverished blood of its poisons by way of the kidneys. It can be obtained at almost any drug store, by simply asking for "Anuric" for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swelling, cold extremities, scaling and burning urine and sleeplessness due to constant arising from bed at night.

MYSTERIOUS PAINS AND ACES

Make Life Hard To Bear For Many Hickory Women

Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back, dizzy spells, headaches and irregular urination. Kidney weakness becomes dangerous if neglected. Use a time-tried kidney remedy—Doan's Kidney Pills. Hosts of people testify to their merit. Read a Hickory woman's case:

Mrs. L. M. Thomas, 2 Tenth Ave., Hickory, says: "Some time ago I was down with backache, brought on, I believe by weak kidneys. The pain bothered me, particularly in the morning. After I was up and around for awhile, the trouble wore off, but appeared again the next morning. My ankles also became swollen. Doan's Kidney Pills, which I got from Lutz's Drug Store, gave me relief from the first and two boxes removed the trouble."

Price 50c, at all dealers. Don't simply ask for a Kidney remedy—get Doan's Kidney Pills—the same that Mrs. Thomas had. Foster-Milburn Co., Props., Buffalo, N. Y.

NOTICE TO CONTRACTORS

Bids will be received by the City Council of Hickory, N. C., until 7:30 p. m. Tuesday, Oct. 10, for the erection and completion of a School Building in the City of Hickory, N. C., according to plans and specifications prepared by J. J. Baldwin, Architect, Anderson, S. C.

The building will be of brick, composition roof, slate blackboards, etc. Contractors wishing to bid on the work will find plans and specifications on file in the City Manager's office in Hickory, N. C. or in the Architect's office, Anderson, S. C. Individual copies may be procured by contractors wishing to bid by depositing with the Architect \$10.00 to assure the safe return of the plans and specifications. When plans and specifications are returned to the architect and a bid is submitted the deposit will be returned to the contractor. The successful contractor will be required to give bond in some solvent surety company in the amount of 50 per cent of the contract price to guarantee a faithful performance of his contract. A certified check for \$500.00 must accompany each bid as an evidence of good faith that the contractor will enter a satisfactory contract and give up his expense the above stated bond.

The City Council reserves the right to reject any and all bids. Ths Sept. 21, 1916.

JOHN W. BALLEW, City Manager

J. J. BALDWIN, Architect, Anderson, S. C.

A GREAT DISCOVERY

Swollen hands, ankles, feet are due to a dropsical condition caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

As a remedy for those easily recognized symptoms on inflammation caused by uric acid—as scalding uric or uric acid in the blood has caused rheumatism, sciatica, gout, it is a simply wonderful how quickly "Anuric" acts; the pain and stiffness rapidly disappear.

The very best possible way to take care of yourself is to take a glass of hot water before meals and "Anuric" the discovery of Dr. Pierce of Buffalo, N. Y.

Step into any drug store and ask for 50c package of "Anuric" which is many times more potent than lithia and eliminates uric acid as hot water melts sugar. A trial will convince you.
